To Whom It May Concern:

As the I.T. liaison between the Canadian Liver Foundation and D-Tech Consulting, I have direct contact with them on a regular basis and can say with confidence that their services are excellent.

D-Tech has provided us with solid advice and support since 2007; they are our virtual I.T. department. Their response time is fast and their ticketing system in place makes it easy to log and track company support issues.

As a national non-profit organization, it is important to have an I.T. company who can handle the unique issues at our remote offices across Canada and provide the right solutions and systems. Right from the beginning we followed through with D-Tech's philosophy on I.T.; they provided all the services and solutions we needed and more. The D-Tech Staff are extremely pleasant to deal with and we know our I.T environment is in good hands. It is without any reservation the Canadian Liver Foundation highly recommends D-Tech Consulting for any business or non-profit organization.

Sincerely,

Karen Lyon
